1.  The amendment filed on 20 January 2011 under 37 CFR 1.312 has been considered, and has been:

- a)  entered.
- b)  entered as directed to matters of form not affecting the scope of the invention.
- c)  disapproved because the amendment was filed after the payment of the issue fee.  
Any amendment filed after the date the issue fee is paid must be accompanied by a petition under 37 CFR 1.313(c)(1) and the required fee to withdraw the application from issue.
- d)  disapproved. See explanation below.
- e)  entered in part. See explanation below.

Applicant's amendment to the specification on page 20 is entered.

Applicant's amendment to page 3 of the specification is not entered because, while the amendment to correct the typographical error is acceptable, the paragraph contains a 19-mer sequence, gcttggagctccagca gct, which is not identified by SEQ ID No. It is not clear if this sequence was given a SEQ ID No. and this paragraph of the specification amended during prosecution of the application. Applicant is requested to include a SEQ ID No. for the 19-mer and include this sequence in the sequence listing.
